

CERTIFIED SUPPLY CHAIN PROFESSIONAL (CSCP)

The APICS CSCP program is the first and only supply chain certification that encompasses the end-to-end global supply chain. From suppliers to the end customer, CSCP covers globalization, IT enablement and both supplier and customer relations.

Certification designed with you in mind

CSCP provides individuals with common standards to address today's supply chain challenges, it's designed for:

- Supply chain professionals seeking to enhance knowledge and expertise
- Consultants who want to demonstrate expertise in supply chain management
- Professionals who work with enterprise resource planning (ERP) systems

Professional growth begins here

- **Career Advancement.** Designees on average earn 27 percent more than their counterparts without an APICS certification.
- **Increased credibility.** CSCP increases your knowledge and skills in the supply chain industry, helping you to stand out from your peers.
- **Boost your confidence** and become recognized as a global supply chain expert.

Professional opportunities

Your investment will continue to reward your efforts; your certification goes where you go and leads to recognition and respect for your abilities as a supply chain professional.

CSCP exam preparation

Your journey begins with the CSCP Learning System:

- **The CSCP Learning System** is a comprehensive preparation option that builds on your strengths and improves your knowledge.
- **Choose the learning option** that works best for you, instructor-led classes or self-study.
- **Take the exam.** Designees only need to pass one exam to earn the CSCP certification.

Membership has its privileges
