

# CERTIFIED IN PRODUCTION AND INVENTORY MANAGEMENT (CPIM)

CPIM provides you with the knowledge and skills you need to effectively master the concepts, strategies and terminology to maximize the ROI on your organization's systems and increase customer satisfaction.

With over 112,000 designees around the world, CPIM has been recognized globally as the standard of professional competence in production and inventory management since 1973.

## Certification designed with you in mind

CPIM is essential for professionals working in:

- Production and inventory management
- Operations
- Supply chain management
- Procurement
- Materials management
- Purchasing
- Planning

## Professional growth begins here

- **Career Advancement.** Designees on average earn 27 percent more than their counterparts without an APICS certification.
- **Professional Opportunities.** 65 percent report that their CPIM designation made a positive impact in hiring decisions.
- **Increased credibility.** CPIM increases your knowledge and skills in the supply chain industry, helping you to stand out from your peers.

## Professional opportunities

Your investment will continue to reward your efforts; your certification goes where you go and leads to recognition and respect for your abilities as a supply chain professional.

## Exceptional exam preparation

Your journey begins with the CPIM Learning Systems for the Part 1 and Part 2 exams.

- **The CPIM Learning System** is a comprehensive preparation option that builds on your strengths and improves your knowledge.
- **Choose the learning** option that works best for you, instructor-led classes or study independently at your own pace.
- **Take the exams.** CPIM designees must successfully pass two exams to earn the CPIM certification.
