# CSCP

## CERTIFIED SUPPLY CHAIN PROFESSIONAL

Earning your CSCP shows employers that you have have the skills and knowledge to effectively manage global supply chain efforts and implement essential concepts and strategies to improve day-to-day operations.

When it comes to supply chain certifications, APICS is the gold standard. As an APICS CSCP designee, you will have mastered the skills needed to bring new ideas to suppliers, plants, and distributors while improving customer satisfaction.

**If you have any of these responsibilities, CSCP is right for you:**

- Supply chain strategy and/or design
- Supply chain technology selection, setup, maintenance or use
- Demand planning and management
- Customer and supplier relationship management
- Managing risk (identifying, assessing, response planning) in the supply chain
- Measure supply chains and their metrics
- Supply chain change management
- Supply chain financial management

## PROFESSIONAL GROWTH BEGINS HERE

### Career Advancement
Designees on average earn 21 percent more than their counterparts without an APICS certification.

### Increased Credibility
CSCP increases your knowledge and skills, helping you to stand out from your peers.

### Increased Confidence
Benefit from becoming recognized as an end-to-end supply chain expert.

## THE CSCP PROGRAM
**The CSCP exam consists of three modules:**

Module 1: Supply Chain Design

Module 2: Supply Chain Planning and Execution

Module 3: Supply Chain Improvements and Best Practices

## About APICS and ASCM

For more than 60 years, APICS certifications and training have demonstrated a commitment to global supply chain excellence – achieved one person at a time. APICS CPIM, CSCP and CLTD are now part of the Association for Supply Chain Management (ASCM), the largest nonprofit association for supply chain professionals. ASCM is proud to offer the globally recognized certification programs you've come to trust.
