Instructor Guide

This page left intentionally blank

Brief Table of Contents

Session 1	Operations Management Foundations
Session 2	Introduction to Manufacturing Management
Session 3	Manufacturing Product Structures
Session 4	Basics of Material Requirements Planning (MRP)
Session 5	Managing with MRP
Session 6	Mid-Term Examination
Session 7	Capacity Planning and Management
Session 8	Production Activity Control
Session 9	Advanced Scheduling
Session 10	Lean Production Management
Session 11	Final Exam

Table of Contents

Session 1: Operations Management Foundations

Principles of Operations Management Overview	1-3
Principles of Manufacturing Management Overview	1-5
Operations Management Foundations Overview	1-7
Session Learning Objectives	1-9
Why Study Operations Management?	1-11
Why is Operations Management So Important?	1-13
Operations Management Definition.....	1-21
What Do Operations Managers Do?	1-25
Operations Management and the Organization.....	1-27
Operations Management and the Supply Chain	1-29
Operations Management and Competitive Advantage.....	1-35
Trends in Operations Management	1-39
Career Opportunities.....	1-41
Manufacturing Concepts Self-Assessment	1-45
Terms Check.....	1-55
Performance Check – Answers and Test Documents	1-58
Suggested Additional Readings	1-65

Session 2: Introduction to Manufacturing Management

Introduction to Manufacturing Management Overview	2-3
Session Learning Objectives.....	2-5
Defining Manufacturing	2-7
Components of Manufacturing Management	2-9
Defining Manufacturing Strategy.....	2-11
Product Manufacturing Environments	2-13
Variety, Volume, and Lead Time	2-15
Product Manufacturing Positioning.....	2-19
Marketplace/Customer Expectations	2-21
Manufacturing Process Choices.....	2-23
Process layout Options.....	2-29
Manufacturing Strategy Steps	2-35
Forms of Manufacturing Strategy.....	2-37
Manufacturing Structural Choices.....	2-41
Batch Versus Flow Production	2-45
Push Model	2-47
Pull Model	2-49
Performance Check	2-69
Suggested Additional Readings.....	2-74
Terms Check	2-53
Performance Check – Answers and Test Documents.....	2-63
Suggested Additional Readings.....	2-73

Session 3: Manufacturing Product Structures

Manufacturing Product Structures Overview	3-3
Session Learning Objectives	3-5
Defining the Product Structure	3-7
Defining the Bill of Material.....	3-9
Defining the Process Routing.....	3-11
Product Structure Management Process	3-15
Bill of Material Uses.....	3-17
Basic Bill of Material Formats	3-21
Achieving BOM Accuracy	3-27
Work Centers.....	3-31
Work Center Utilization and Efficiency.....	3-33
Processing Time Elements	3-35
Establishing the Process Routing	3-37
Importance of Manufacturing Costing.....	3-43
Product Costing Components and Uses	3-45
Product Structure Cost Development.....	3-47
Terms Check.....	3-55
Performance Check – Answers and Test Documents	3-60
Suggested Additional Readings	3-71

Session 4: Basics of Material Requirements Planning (MRP)

Basics of MRP Overview.....	4-3
Session Learning Objectives.....	4-5
How Do You Make a Product?	4-7
Critical Inventory Questions	4-9
Inventory Management Methods	4-11
Independent Versus Dependent Demand	4-13
Problem with Statistical Stock Replenishment	4-15
Statistical Replenishment/MRP Comparison	4-19
Time Phasing – the Heart of MRP	4-21
MRP Definition.....	4-23
MRP in the MPC Flow	4-25
MRP Flow	4-27
MRP Objectives and Functions.....	4-29
MRP Process Inputs and Outputs.....	4-31
Using the Bill of Material Structure for MRP.....	4-33
Lead Time Offsetting and Exploding	4-35
Introduction to the MRP Grid	4-39
PAB and the MRP Grid	4-41
Net Requirements and the MRP Grid.....	4-43
MRP Generation Order Policies	4-45
MRP Planned Order Generation	4-47
Terms Check	4-55
Performance Check – Answers and Test Documents.....	4-60
Suggested Additional Readings.....	4-73

Session 5: Managing With MRP

Managing with MRP Overview.....	5-3
Session Learning Objectives	5-5
Bills of Material Example.....	5-7
Gross and net Requirements – Explosion.....	5-9
MRP Explosion – Level 0.....	5-11
MRP Explosion – Level 1.....	5-13
MRP Explosion – Level 2.....	5-15
Role of the MRP Planner	5-17
Causes of MRP Change	5-19
MRP Management Process.....	5-21
Prerequisites for MRP.....	5-23
MRP Generation.....	5-25
Types of MRP Supply Orders.....	5-29
Action Messages	5-31
Policies and Methods	5-39
MRP Problem Indicators.....	5-41
MRP Performance Measurements	5-43
Terms Check.....	5-47
Performance Check – Answers and Test Documents	5-51
Suggested Additional Readings	5-63

Session 6: Mid-Term Exam

Session 7: Capacity Planning and Management

Capacity Planning and Management Overview	7-3
Session Learning Objectives.....	7-5
Definitions of Capacity	7-7
Capacity Elements.....	7-9
Capacity Management Levels.....	7-13
CRP Definition.....	7-15
Flexibility of Capacity and Scheduling.....	7-19
Capacity Planning Objectives.....	7-21
Inputs into Capacity Management	7-23
Managing the Capacity Process	7-25
Capacity Components	7-27
Calculating Work Center Capacity	7-29
Calculating Work Center Load	7-31
Work Center Aggregate Load Display.....	7-33
Basic Scheduling and Loading Techniques	7-35
Finite and Infinite Loading	7-37
Load Profile.....	7-41
Load Versus Capacity Report.....	7-43
Managing Excesses and Shortages in Capacity	7-45
Terms Check	7-49
Performance Check – Answers and Test Documents.....	7-53
Suggested Additional Readings.....	7-67

Session 8: Production Activity Control

Production Activity Control Overview	8-3
Session Learning Objectives	8-5
Defining Production Activity Control	8-7
Goals of Production Activity Control.....	8-9
Characteristics of PAC Systems	8-11
PAC Functions Detail	8-13
PAC and the Planning System.....	8-15
PAC Database Files.....	8-17
PAC System Prerequisites	8-21
Major PAC Activities	8-23
Order Release Process	8-25
Production Order Packet	8-27
Scheduling Operations	8-29
Backward Scheduling Example.....	8-31
Detailed Scheduling.....	8-35
Dispatching Priority Rules	8-37
Data Collection and Monitoring	8-41
Purposes of PAC Control and Feedback.....	8-43
Short-Term Corrective Actions.....	8-45
Order Disposition and Closeout	8-47
PAC Activities – A Summary	8-49
Terms Check.....	8-53
Performance Check – Answers and Test Documents	8-60
Suggested Additional Readings	8-71

Session 9: Advanced Scheduling

Advanced Scheduling Overview	9-3
Session Learning Objectives	9-5
Types of Scheduling.....	9-7
MRP-Push System Scheduling.....	9-9
Lean-Pull System Scheduling.....	9-11
MRP Versus Lean Scheduling Factors.....	9-13
Scheduling Definition - Revisited	9-15
MRP-Based Scheduling Inputs.....	9-17
Managing order Schedules	9-19
Scheduling Functions	9-21
Planned Order Release and Scheduling.....	9-23
Order Release – Loading and Sequencing.....	9-25
Order Dispatching.....	9-27
Steps in the Rescheduling Process	9-29
Resolving Schedule Conflicts.....	9-31
Order Status Report.....	9-33
Work Center Load Profile.....	9-35
Operation Overlapping.....	9-37
Lot Splitting	9-39
Scheduling Bottleneck Work Centers	9-41
Schedule Performance	9-43
Input/Output Reporting.....	9-45
Terms Check	9-51
Performance Check – Answers and Test Documents	9-57
Suggested Additional Readings	9-69

Session 10: Lean Production Management

Lean Production Management Overview	10-3
Session Learning Objectives.....	10-5
Defining Lean.....	10-7
Lean Evolution	10-9
Defining Just-In-time (JIT).....	10-11
Comparing JIT to Lean.....	10-13
Why Implement Lean?	10-15
The Structure of Lean	10-17
Removal of Waste	10-19
Standardization and the 5S System	10-23
Lean Thinking	10-25
Employee Involvement and Empowerment	10-27
Elements and Goals of Lean Production	10-29
Lean Plant Layout Design	10-31
The Pull System – Basic Concepts	10-33
Kanban Overview	10-35
Calculating Kanban Cards	10-37
Two-Card Kanban Process Flow	10-39
MRP Planning and Lean Scheduling.....	10-47
Production Leveling.....	10-49
Heijunka Scheduling	10-51
Takt Time Scheduling.....	10-53
Customer Focus.....	10-55
Terms Check.....	10-59
Performance Check – Answers and Test Documents.....	10-67
Suggested Additional Readings.....	10-79

Session 11: Final Exam
